

## UMATILLA CHEMICAL ACTIVITY INCIDENT WARNING

A warning concerning an incident or emergency at the Umatilla Chemical Activity, as defined under the Army's Chemical Stockpile Emergency Preparedness Program (CSEPP), will normally be received via telephone by the EM Duty Officer, who will, according to established procedures, send out a message over both NAWAS and ACCESS, as outlined below.

1. For an incident at the Umatilla Chemical Activity, the Duty Officer will transmit the appropriate message over NAWAS with a "hard copy" ACCESS message over the Law Enforcement Teletype System (LETS). If needed, the Duty Officer will have a Telecommunications Coordinator from the Telecommunications Section assist in preparing/transmitting these messages.
2. NAWAS procedures/message
